IHS	MASK, SURGICAL, N95 FLUIDSHIELD (REGULAR)	46727	CS	35	35 EA/BX	Fluidshield N95 Particulate Filter articulate Filter Respirator and Surgical Mask meets the demands of healthcare professionals. NIOSH-approved this mask provides the facial fit required for proper respiratory protection and safety in high-risk environments. Engineered with a 4-layer construction the mask offers a reliable barrier against particulates and fluids while maintaining breathability and comfort. The soft inner lining enhances wearer comfort during extended use while the 100% natural rubber latex-free design minimizes the risk of latex-related allergies. The mask has a safety seal for a secure fit and enhanced reliability for added convenience and protection.	0	3	Annually
IHS	MASK, SURGICAL, N95 FLUIDSHIELD (S)	46827	CS	35	35 EA/BX	Fluished N95 Particulate Filter articulate Filter Respirator and Surgical Mask meets the demands of healthcare professionals. NIOSH-approved this mask provides the facial fit required for proper respiratory protection and safety in high-risk environments. Engineered with a 4-layer construction the mask offers a reliable barrier against particulates and fluids while maintaining breathability and comfort. The soft inner lining enhances wearer comfort during extended use while the 100% natural rubber latex-free design minimizes the risk of latex-related allergies. The mask has a safety seal for a secure fit and enhanced reliability for added convenience and protection.	0	3	Annually
IHS	KIT, PAPR, HEAVY INDUSTRY, TR-300N+ HIK	7100153815	EACH	1	EA	Slim, lightweight unit is well-balanced and comfortable to wear for long work shifts Two user selectable airflows enable the user to control flow settings to allow the user to find the setting they find most comfortable. Blowers automatically adjust airflow to compensate for filter loading to deliver consistent filtered air during use.	0	2	Annually

IHS	MASK, SURGICAL, HORIZONTAL HEAD TIE, LEVEL III, DISPOSABLE	DT-MSK-003T	BOX	50	50 EA/BX	Mask with Horizontal Ties is manufactured using the highest quality of American-made materials, and 100% manufactured in the USA. The surgical mask is rated ASTM Level 3 with the highest level of protection. Technical Characteristics: resistance to penetration by synthetic blood, measured 160 mm Hg; differential pressure, mm H/cm2 (Breathability) <6; bacterial filtration efficiency >98%; sub-micron particulates			
IHS	COVERALLS, SMS DISPOSABLE (M)	NYSCOV01MED	CS	50	50 EA/CS	SMS Coveralls (M) offer maximum protection and convenience for healthcare and industrial environments. The no fabric wrist cuff reduces the risk of harboring pathogens, minimizing self-contamination and enhancing safety. Breakaway hip and neck ties provide ease of removal, ensuring a contamination-free process and simplifying disposal. Constructed with SMS (Spunbond Meltblown Spunbond) material, these coveralls provide excellent barrier	2	2	Quarterly
IHS	HOOD, VERSAFLO, PAPR SYSTEM/SAR SYSTEM, WHITE	11V984; S-403L-20	PACKAGE	20	20 EA/PG	3M general purpose PAPR (powered air-purifying respirator) headgear covers the head to allow clean air to be directed to the worker. A breathing tube connects the helmet to the filtered air source to deliver a constant flow of air inside the worker's headgear.	2	19	Annually
IHS	MASK, 3M N95 SURGICAL 1870+	1870+	CS	240	240 EA/CS	Aura Health Care Particulate Respirator and Surgical N95 Mask has comfortable inner materials and helps provide respiratory protection against certain airborne biological particles. The individually packaged, flat-fold design allows for convenient storage prior to use. Fluid-resistant surgical masks help reduce your exposure to blood and body fluids. Cleared for sale by the Food and Drug Administration (FDA). Unique three-panel design fits a wide range of face	10	25	Quarterly

The individually packaged, flat-fold design allows for convenient storage prior to use. Fluid-resistant surgical masks help reduce your exposure to blood and body fluids. Cleared for sale by the Food and Drug Administration (FDA). Unique three-panel design fits a wide range of face	2	40	Quarterly
FDA	MASK, 3M N95 SURGICAL 1870+ (BULK)	1870+	CS	400	400 EA/CS	Aura Health Care Particulate Respirator and Surgical N95 Mask has comfortable inner materials and helps provide respiratory protection against certain airborne biological particles. The individually packaged, flat-fold design allows for convenient storage prior to use. Fluid-resistant surgical masks help reduce your exposure to blood and body fluids. Cleared for sale by the Food and Drug Administration (FDA). Unique three-panel design fits a wide range of face			
FDA	MASK, EARLOOPS, LEVEL III, BLACK, DISPOSABLE	DT-MSK-003B-50	BOX	50	50 EA/BX	The Black mask comprises three layers, two non-woven, and the white melt is a blown filter inside. The inner layer is thinner than the outer layer to be more comfortable against the face. Its results in uneven coloring (mottling/streaking) where the white shows through the coating. It is not a chemical residue and does not affect the mask's quality, functionality, or safety. Technical Information: resistance to penetration by synthetic blood, measured 160mm Hg differential			
FDA	MASK, FACE, CLEAR- VIEW WINDOW, LEVEL I	FM86010	CS	100	100 EA/CS	Clear-View is an innovative, FDA approved face mask level 1 for healthcare professionals who desire better communication while wearing a mask. Anti-fog film reduces fogging of the window. Patented design Does not contain latex			

FDA	MASK, FACE, CLEAR-VIEW WINDOW, LEVEL III	FM86011	CS	100	100 EA/CS	Clear-View is an innovative, FDA approved face mask level 3 for healthcare professionals who desire better communication while wearing a mask. Anti-fog film reduces fogging of the window. Patented design Does not contain latex			
FDA	MASK, FACE, DOUBLE-LAYER, BARRIER	NYSBAR01	BOX	50	50 EA/BX	These high fluid-resistant surgical masks feature a two-layer design for optimal protection. They have breathable non-woven fabric, latexfree earloops, and a P.E.-coated metal nose bridge for a secure fit. Compliant with ASTM F3352, these masks are made in the USA from 100% American-made materials, meeting Berry Amendment standards.			
FDA	MASK, FACE, NON-MEDICAL BARRIER, YELLOW	FM81000	CS	500	500 EA/CS	Standard face masks in the ProGear line. Basic isolation masks provide complete protection while remaining light and comfortable. Technical information: BFE and PFE ratings above 97%; does not contain latex			
FDA	MASK, N95 PARTICULATE RESPIRATOR (REG)	RP88020	CS	300	300 EA/CS	ProGear Surgical N95 Respirator is intended to protect both patients and healthcare workers from the transfer of microorganisms and airborne particulate materials. Regular size N95 mask without Comfort Strip Contains only domestic raw materials ASTM Level 3 fluid barrier protection Cleared by the FDA for use as a surgical mask Filters +98% of particles down to 0.1 microns Large filter area allows for easy breathing and sneaking			
FDA	MASK, N95 PARTICULATE RESPIRATOR (S)	RP88010	CS	300	300 EA/CS	ProGear Surgical N95 Respirator is intended to protect both patients and healthcare workers from the transfer of microorganisms and airborne particulate materials. Small size N95 mask without Comfort Strip Contains only domestic raw materials ASTM Level 3 fluid barrier protection Cleared by the FDA for use as a surgical mask Filters +98% of particles down to 0.1 microns Large filter area allows for easy breathing and sneaking			

FDA	MASK, N95 PARTICULATE RESPIRATOR W/ COMFORT STRIP	RP88021	CS	300	300 EA/CS	ProGear Surgical N95 Respirator is intended to protect both patients and healthcare workers from the transfer of microorganisms and airborne particulate materials. Cleared for sale by the Food and Drug Administration (FDA). Unique three-panel design fits a wide range of face			

FDA	MASK, 3M N95 SURGICAL 1870+ (BULK)	1870+	CS	400	400 EA/CS	Aura Health Care Particulate Respirator and Surgical N95 Mask has comfortable inner materials and helps provide respiratory protection against certain airborne biological particles. The individually packaged, flat-fold design allows for convenient storage prior to use. Fluid-resistant surgical masks help reduce your exposure to blood and body fluids. Cleared for sale by the Food and Drug Administration (FDA). <u>Unique three-panel design fits a wide range of face</u>			
FDA	MASK, EARLOOPS, LEVEL III, BLACK, DISPOSABLE	DT-MSK-003B-50	BOX	50	50 EA/BX	The Black mask comprises three layers, two non-woven, and the white melt is a blown filter inside. The inner layer is thinner than the outer layer to be more comfortable against the face. Its results in uneven coloring (mottling/streaking) where the white shows through the coating. It is not a chemical residue and does not affect the mask's quality, functionality, or safety. Technical Information: resistance to penetration by <u>synthetic blood, measured 160mm Hg differential</u>			
FDA	MASK, FACE, CLEAR-VIEW WINDOW, LEVEL I	FM86010	CS	100	100 EA/CS	Clear-View is an innovative, FDA approved face mask level 1 for healthcare professionals who desire better communication while wearing a mask. Anti-fog film reduces fogging of the window. Patented design Does not contain latex			
FDA	MASK, FACE, CLEAR-VIEW WINDOW, LEVEL III	FM86011	CS	100	100 EA/CS	Clear-View is an innovative, FDA approved face mask level 3 for healthcare professionals who desire better communication while wearing a mask. Anti-fog film reduces fogging of the window. Patented design Does not contain latex			
FDA	MASK, FACE, DOUBLE-LAYER, BARRIER	NYSBAR01	BOX	50	50 EA/BX	These high fluid-resistant surgical masks feature a two-layer design for optimal protection. They have breathable non-woven fabric, latexfree earloops, and a P.E.-coated metal nose bridge for a secure fit. Compliant with ASTM F3352, these masks are made in the USA from 100% American-made materials, meeting Berry Amendment standards.			

FDA	MASK, FACE, NON-MEDICAL BARRIER, YELLOW	FM81000	CS	500	500 EA/CS	Standard face masks in the ProGear line. Basic isolation masks provide complete protection while remaining light and comfortable. Technical information: BFE and PFE ratings above 97%; does not contain latex			
FDA	MASK, N95 PARTICULATE RESPIRATOR (REG)	RP88020	CS	300	300 EA/CS	ProGear Surgical N95 Respirator is intended to protect both patients and healthcare workers from the transfer of microorganisms and airborne particulate materials. FDA	HOOD, VERSAFLO, PAPR SYSTEM/SAR SYSTEM, WHITE	11V984; S-403L-20	PACKAGE	20	20 EA/PG	3M general purpose PAPR (powered air-purifying respirator) headgear covers the head to allow clean air to be directed to the worker. A breathing tube connects the helmet to the filtered air source to deliver a constant flow of air inside the worker's headgear.			

FDA	KIT, PAPR, HEAVY INDUSTRY, TR-300N+ HIK	7100153815	EACH	1	EA	Slim, lightweight unit is well-balanced and comfortable to wear for long work shifts Two user selectable airflows enable the user to control flow settings to allow the user to find the setting they find most comfortable. Blowers automatically adjust airflow to compensate for filter loading to deliver consistent filtered air during use.			
FDA	MASK, 3M N95 SURGICAL 1870+	1870+	CS	240	240 EA/CS	Aura Health Care Particulate Respirator and Surgical N95 Mask has comfortable inner materials and helps provide respiratory protection against certain airborne biological particles. The individually packaged, flat-fold design allows for convenient storage prior to use. Fluid-resistant surgical masks help reduce your exposure to blood and body fluids. Cleared for sale by the Food and Drug Administration (FDA). <u>Unique three-panel design fits a wide range of face</u>			
FDA	MASK, 3M N95 SURGICAL 1870+ (BULK)	1870+	CS	400	400 EA/CS	Aura Health Care Particulate Respirator and Surgical N95 Mask has comfortable inner materials and helps provide respiratory protection against certain airborne biological particles. The individually packaged, flat-fold design allows for convenient storage prior to use. Fluid-resistant surgical masks help reduce your exposure to blood and body fluids. Cleared for sale by the Food and Drug Administration (FDA). <u>Unique three-panel design fits a wide range of face</u>			
FDA	MASK, EARLOOPS, LEVEL III, BLACK, DISPOSABLE	DT-MSK-003B-50	BOX	50	50 EA/BX	The Black mask comprises three layers, two non-woven, and the white melt is a blown filter inside. The inner layer is thinner than the outer layer to be more comfortable against the face. Its results in uneven coloring (mottling/streaking) where the white shows through the coating. It is not a chemical residue and does not affect the mask's quality, functionality, or safety. Technical Information: resistance to penetration by <u>synthetic blood, measured 160mm Hg differential</u>			
FDA	MASK, FACE, CLEAR- VIEW WINDOW, LEVEL I	FM86010	CS	100	100 EA/CS	Clear-View is an innovative, FDA approved face mask level 1 for healthcare professionals who desire better communication while wearing a mask. Anti-fog film reduces fogging of the window. Patented design Does not contain latex			

FDA	MASK, FACE, CLEAR-VIEW WINDOW, LEVEL III	FM86011	CS	100	100 EA/CS	Clear-View is an innovative, FDA approved face mask level 3 for healthcare professionals who desire better communication while wearing a mask. Anti-fog film reduces fogging of the window. Patented design Does not contain latex			
FDA	MASK, FACE, DOUBLE-LAYER, BARRIER	NYSBAR01	BOX	50	50 EA/BX	These high fluid-resistant surgical masks feature a two-layer design for optimal protection. They have breathable non-woven fabric, latexfree earloops, and a P.E.-coated metal nose bridge for a secure fit. Compliant with ASTM F3352, these masks are made in the USA from 100% American-made materials, meeting Berry Amendment standards.			
FDA	MASK, FACE, NON-MEDICAL BARRIER, YELLOW	FM81000	CS	500	500 EA/CS	Standard face masks in the ProGear line. Basic isolation masks provide complete protection while remaining light and comfortable. Technical information: BFE and PFE ratings above 97%; does not contain latex			
FDA	MASK, N95 PARTICULATE RESPIRATOR (REG)	RP88020	CS	300	300 EA/CS	ProGear Surgical N95 Respirator is intended to protect both patients and healthcare workers from the transfer of microorganisms and airborne particulate materials. Regular size N95 mask without Comfort Strip Contains only domestic raw materials ASTM Level 3 fluid barrier protection Cleared by the FDA for use as a surgical mask Filters +98% of particles down to 0.1 microns Large filter area allows for easy breathing and sneaking			
FDA	MASK, N95 PARTICULATE RESPIRATOR (S)	RP88010	CS	300	300 EA/CS	ProGear Surgical N95 Respirator is intended to protect both patients and healthcare workers from the transfer of microorganisms and airborne particulate materials. Small size N95 mask without Comfort Strip Contains only domestic raw materials ASTM Level 3 fluid barrier protection Cleared by the FDA for use as a surgical mask Filters +98% of particles down to 0.1 microns Large filter area allows for easy breathing and sneaking			

FDA	MASK, N95 PARTICULATE RESPIRATOR W/ COMFORT STRIP	RP88021	CS	300	300 EA/CS	ProGear Surgical N95 Respirator is intended to protect both patients and healthcare workers from the transfer of microorganisms and airborne particulate materials. Regular size N95 mask without Confort Strip Contains only domestic raw materials ASTM Level 3 fluid barrier protection Cleared by the FDA for use as a surgical mask Filters +98% of particles down to 0.1 microns Large filter area allows for easy breathing and sneaking			
HRSA	MASK, N95 PARTICULATE RESPIRATOR (S)	RP88010	CS	300	300 EA/CS	ProGear Surgical N95 Respirator is intended to protect both patients and healthcare workers from the transfer of microorganisms and airborne particulate materials. Small size N95 mask without Confort Strip Contains only domestic raw materials ASTM Level 3 fluid barrier protection Cleared by the FDA for use as a surgical mask Filters +98% of particles down to 0.1 microns Large filter area allows for easy breathing and sneaking			
HRSA	MASK, N95 PARTICULATE RESPIRATOR W/ COMFORT STRIP	RP88021	CS	300	300 EA/CS	ProGear Surgical N95 Respirator is intended to protect both patients and healthcare workers from the transfer of microorganisms and airborne particulate materials. Regular size N95 mask with Confort Strip Contains only domestic raw materials ASTM Level 3 fluid barrier protection Cleared by the FDA for use as a surgical mask Filters +98% of particles down to 0.1 microns Large filter area allows for easy breathing and sneaking			
HRSA	MASK, PROCEDURE, EARLOOP, LEVEL I	PM3001	CS	1200	50 EA/BX, 24 BX/CS	Level 1 earloop procedure barrier mask - meets current ASTM F2100 standards Protective 3-layer mask body construction Nose piece allows secure fit over the nose and cheek bones Flexible, soft ear loops allow easy donning and doffing Single use design Not made from Natural Rubber Latex			
HRSA	MASK, PROCEDURE, EARLOOP, LEVEL I, BLUE	FM81020	CS	500	500 EA/CS	Standard face masks in the ProGear line. Basic isolation masks provide complete protection while remaining light and comfortable. Technical information: BFE and PFE ratings above 97%; does not contain latex			

HRSA	MASK, PROCEDURE, EARLOOP, LEVEL III	PM3003	CS	1200	50 EA/BX, 24 BX/CS	Level 3 earloop procedure barrier mask - meets current ASTM F2100 standards Protective 3-layer mask body construction Nose piece allows secure fit over the nose and cheek bones Flexible, soft ear loops allow easy donning and doffing Single use design Not made with Natural Rubber Latex			
HRSA	MASK, PROCEDURE, EARLOOP, DRY-SHIELD, LEVEL III	FM82030	CS	500	500 EA/CS	Dry-Shield ASTM Level 3 fluid resistant procedure earloop masks provide the highest fluid resistance level of any mask in our line			
HRSA	MASK, SURGICAL W/ EARLOOPS	NYSMSK01	BOX	50	50 EA/BX	3-Ply Disposable Face Mask with latex-free ear loops and P.E. coated metal nose bridge for a form fit fit. Constructed of American made high-quality, ultra-soft, breathable non-woven fabrics, providing the user with three layers of protection; 1) liquid barrier protection 2) Filter providing 99% protection against airborne particulates; 3) Ultra-soft skin-contact layer for comfort. Our 100% polypropylene three-ply body is compressed using ultrasonic welding for maximum light weight			
HRSA	MASK, SURGICAL, HORIZONTAL HEAD TIE, LEVEL III, DISPOSABLE	DT-MSK-003T	BOX	50	50 EA/BX	Mask with Horizontal Ties is manufactured using the highest quality of American-made materials, and 100% manufactured in the USA. The surgical mask is rated ASTM Level 3 with the highest level of protection. Technical Characteristics: resistance to penetration by synthetic blood, measured 160 mm Hg; differential pressure, mm H/cm2 (Breathability) <6; bacterial filtration efficiency >98%; sub-micron particulates			
HRSA	MASK, SURGICAL, LEVEL III, DISPOSABLE	DT-MSK-003	BOX	50	50 EA/BX	Surgical Earloop face masks manufactured using the highest quality of American-made materials, and 100% manufactured in the USA. It is rated ASTM level 3 with the highest level of protection. Technical information: resistance to penetration by synthetic blood, measured 160 mm Hg; differential pressure, mm H20/cm2 (Breathability) >6; bacterial filtration efficiency >98%; sub-micron particulates filtration efficient at 0.1 micron >98%, and flame spread			

HRSA	MASK, SURGICAL, LEVEL III, DISPOSABLE, (S)	DT-MSK-003S	BOX	50	50 EA/BX	Surgical face masks is manufactured using the highest quality of American-made materials, and 100% manufactured in the USA. It is rated ASTM level 3 with the highest level of protection. 1. Protective layer: the blue outer layer ensures proper wear and provides high protection against fluids, high breathability, and excellent protection against airborne bacteria. 2. Filter layer: provides at least 98% filtration against
